Please see attached response to applicant's amendment filed 8/19/2003.

Application/Control Number: 09/318,447

Art Unit: 3625

#### **DETAILED ACTION**

### Response to Amendment

The reply filed 8/19/2003 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): the response to the 37 CFR 1.105

Requirement is incomplete, i.e. Applicant states that information subject to a protective order of the Federal district court is being withheld. The examiner notes that:

"Inventors and others covered by <u>37 CFR 1.56(c)</u> and 1.555 have a duty to disclose to the Office information they are aware of which is material to patentability. <u>37 CFR 1.56(b)</u> states that

information is material to patentability when it is not cumulative to information already of record or being made of record in the application, and

- (1) It establishes, by itself or in combination with other information, a prima facie case of unpatentability of a claim; or
- (2) It refutes, or is inconsistent with, a position the applicant takes in:
- (i) Opposing an argument of unpatentability relied on by the Office, or
- (ii) Asserting an argument of patentability.

A prima facie case of unpatentability is established when the information compels a conclusion that a claim is unpatentable under the preponderance of evidence, burden-of-proof standard, giving each term in the claim its broadest reasonable construction consistent with the specification, and before any consideration is given to evidence which may be submitted in an attempt to establish a contrary conclusion of patentability. It is incumbent upon patent applicants, therefore, to bring "material" information to the attention of the Office. It matters not whether the "material" information can be classified as a trade secret, or as proprietary material, or whether it is subject to a protective order. The obligation is the same; it must be disclosed if "material to patentability" as defined in 37 CFR 1.56(b)." (MPEP 724).

Since the above mentioned reply appears to be bona fide, applicant is given ONE (1) MONTH or THIRTY (30) DAYS from the mailing of this notice, whichever is longer, within which to supply the omission or correction to avoid abandonment.

EXTENTION OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

### Additional Information Requested under Rule 1.105

This additional information requirement is based on an article by Robert Godbey in the Hawaii Business magazine which states that Amazon.com owned BountyQuest.com and paid persons for relevant art. Since BountyQuest is no longer an active website, the examiner requests that prior art submitted to this website that challenges the validity of Patent #5,960,411 also be submitted to the examiner along with the information requested above. A complete response to this Office Action must include both the information previously not provided along with this additional information.
